

Piedmont by bike – Castles and parks

8 days / 7 nights

Piedmont is a generous and friendly land in the North of Italy. You will find here quiet roads in green landscapes surrounded by imposing mountains or sweet hills, the signs of a centuries-old culture and, last but not least, great wines and a refined gastronomy.

YOUR PROGRAM

Day 1 - Individual arrival in Turin

You have the possibility to make a short round trip in the centre; overnight in town.

Day 2 - Turin - Venaria - Avigliana

In Venaria you will cycle inside the great regional park "La Mandria", former game preserve of Savoia including their wonderful castle and the stables. Bussoleno is a delicious mountain village with its typical stone roofs and houses; cycling almost always downhill you can reach Susa where you find interesting roman ruins and at last you come to Avigliana. You could visit the two delightful lakes of Avigliana included in a natural park and the medieval centre of the village.

About 40km

Day 3 - Avigliana - Pinerolo

Today we cycle at the foot of the Western Alps, a short climb leads us to Trana, then the path continues up through some small villages up to Pinerolo, along the way we may stop to visit the Museum of Taste in Frossasco. Overnight in the delicious Pinerolo, where in the past there was one of the most famous schools of cavalry in Italy.

About 35 km

Day 4 - Pinerolo - Cavour - Staffarda - Saluzzo

A very intensive day including Cavour with its "Rocca", an alluvial hill 200 meters high -you can reach the top by foot- in the middle of the plain; the abbey of Staffarda, one of the most important religious residences in Piedmont; at last you come to Saluzzo, beautiful small town with its medieval centre placed on the top of a hill.

About 50 km

Day 5 - Saluzzo - Fossano - Cherasco

Left Saluzzo behind you, in short you come to Fossano with its interesting historical centre and then you begin the approaching - light uphill - to the hills of Langhe covered by vineyards giving some of the best Italian wines, like Barolo, Barbera, Dolcetto... In the late afternoon you reach Cherasco, a delightful small town.

About 66 km

Day 6 - Cherasco - Carmagnola

In Racconigi you can visit the residence of the Savoia-Carignano dynasty; this castle is surrounded by a wonderful park; don't miss the interesting historical centre of the village. You can also visit the Lipu oasis with its stork centre.

About 42 km

Day 7 - Carmagnola - Moncalieri - Torino

Cycling along the Po inside the river park, you come to Moncalieri with its castle, another Savoia residence. At last, always along the Po, you reach Turin, noble town with an important past. We recommend a short tour through the centre by night. About 45 km

Day 8 - Turin

In the morning, after the breakfast, it's time for departure. The end of this trip.

HOW TO GET THERE

Turin is a nationally and internationally important railway junction and high-speed trains connect it to Europe and to the rest of Italy. The main railway stations are : Porta Nuova and Porta Susa

Turin has its own international airport located 16 kilometers northwest of the city centre.

EQUIPMENT TO TAKE

ADVISED MATERIAL TO TAKE WITH YOU (non-exhaustive checklist) :

As a good preparation is key to a successful stay, here are a few tips to ensure that your trip takes place in optimal conditions.

BIKES

In order that your stay does not turn into a mechanical training course, it's advisable to carry out a meticulous revision of your bike before going on a tour :

- the tyres are well inflated and in good condition
- cables and chain are in good condition
- the transmission elements are clean and oiled
- there are no leaks in the suspensions
- the wheels are well tightened
- the brakes are in good condition (wear + possible leaks)
- the headset has been checked

And don't forget that anomalies are easier to spot on a cleaned bike...

REPAIR MATERIAL

To avoid mechanical problems, it's better to be far-sighted and always carry the basic equipment of a biker:

- 2 inner tubes (puncture sealant is strongly recommended, or puncture sealant strips)
- a pump
- tire irons
- an inner tube repair kit consisting of patches and glue
- a multi-tool
- a small wrench
- a piece of tire

Also, you can prepare your own toolbox which we transfer with your luggage. You will put in it the following items :

- a brake cable (front and rear)
- a derailleur cable
- a tyre
- one derailleur hanger
- chain oil
- a rag

EQUIPMENT

As you can't judge a book by its cover, cycling slinky shorts won't help you to turn into a cycling champion. However, a minimum of specific bike equipment will be necessary in order to be comfortable :

- a helmet
- glasses
- suitable shoes (no smooth soles)
- a cycling short or short
- a breathable tee-shirt (try to avoid cotton)

DAY BACKPACK

Because it's unpleasant to ride with a too loaded backpack, it's better to think carefully about the necessary things to bring in the backpack for the day:

- a water bag and/or a flask and/or water cans on the bike (2L/day/person minimum)
- provisions (energy bars, dried fruits...)
- the basic repair material for your bike (see above)
- a windbreaker (waterproof)
- picnic
- a headlamp
- a knife
- sun cream (+ lip protection)
- toilet paper
- a first-aid kit (see below)
- your mobile phone + an external battery
- a rubbish bag

PICNIC

In order to avoid unnecessary waste at picnic time, remember to take with you :

- an airtight box (0.5L) with initials marked on the lid and on the box + wide elastics
- reusable cutlery (fork and pocketknife)

TRAVEL BAG

Your luggage is transferred during the day and you will find it every evening at your hotel. It is preferable that your travel bag contains the following items :

- a sleeping bag liner (stays in gîtes)
- a change of clothes
- a pair of light shoes for the evening
- a large jumper or fleece jacket
- a small toilet bag with a towel

FIRST-AID KIT

Concerning all our guided stays, the instructor has a first aid kit.

However, it is essential to bring your own first aid kit.

Here is a list of the minimum items to take with you:

- disinfectant
- gauze strips
- plaster
- protective cream for the buttocks
- your personal medicines
- micropur pastilles (water disinfectant)
- a survival blanket

A more complete first-aid kit should be formulated with your doctor.
